

## **Meet the Iconic Tyrannosaurus in “Victoria the T. rex”, the First Dinosaur Exhibition in Korea**

**New T. rex Discoveries have Landed in Korea**

**Early Bird Tickets Open on 25th March**

**An immersive experience based on Victoria – the largest specimen of the Tyrannosaurus Rex**

**Early Bird tickets will open on 25th March 25, up to 45% off**

As an immersive exhibition that started in Arizona, USA, ‘Victoria the T. rex’, is now coming to Asia for the first time, where visitors can meet the world’s second-largest travelling T. rex fossil landing in Seoul, Korea this April.

This dinosaur exhibition is an immersive experience based on ‘Victoria’, a well-preserved specimen of the most iconic dinosaur, the Tyrannosaurus Rex, and the symbol of not only hunters, but also spouses and mothers. After careful research and restoration, Victoria will be presented to the world, with its skeleton in great condition and the largest sample among many dinosaur specimens, transporting viewers closer to the world of dinosaurs that are 66 million years old.

The exhibition, which is open to visitors of all ages, will combine cutting-edge technology with the latest paleontological discoveries to provide visitors with an educational and emotional experience. Combining innovative AR technology, 3D projection mapping, and interactive elements, the experience is a blend of unique entertainment in which guests can observe dinosaurs, the fiercest and most mysterious creature on Earth, up close.

Presented by Cityneon and produced by its subsidiary, World Heritage Exhibitions, this experience

## Press Release

---

will be held from April 22 to September at the Grand Hall on the first floor of Lotte Department Store's Gimpo Airport branch, and tickets range from 18,000 KRW for adults, 15,000 KRW for teenagers and children, and is free for infants (~24 months).

Early bird ticket events will be held to commemorate the opening of the exhibition in Korea, with up to 45% off for the first round of ticket sales from March 25 to April 7, and up to 40% off in the second round from April 8 to April 21.

An official from the exhibition administration team shared: "This exhibition will be an interesting and eye-opening experience for us to take a deep look at a Tyrannosaurus's life. I hope visitors enjoy going back 66 million years ago to meet Victoria at this Seoul exhibition, which combines various technologies such as 3D projection mapping, holograms, and interactive videos."

Tickets for the "Victoria the T.Rex" exhibition, where you can experience meeting the legendary T. rex, can be booked online via Interpark, Naver, and TMON.

Victoria, one of the most well-known Tyrannosaurus specimens among the scientific community and the general public, is a thoroughly recorded specimen from excavation to restoration, as "Victoria the T-rex" team worked with a group of researchers and paleontologists to explore and develop the latest discoveries of the species.
