The wait is finally over for fans of Jurassic Park, as the interactive dinosaur exhibit has officially opened its doors in Mississauga this week.

The people behind Jurassic World: The Exhibition is inviting guests of all ages to visit the touring show and get up close with life-size versions of the king of dinosaurs, Tyrannosaurus rex, in addition to the ferocious Velociraptors and the more friendly Brachiosaurus, and many more.

It's produced by NEON, a global leader in immersive and epic experiences, and presented in conjunction with Universal Live Entertainment.

A representative from Square One told *insauga.com* that the exhibit will take place outside the mall near the Cineplex.

Located on a stand-alone space beside Square One, at 199 Rathburn Rd. W., *Jurassic World: The Exhibition* was finally available to the public on April 21 and will remain for a yet-to-be-determined period of time.

The tour provides its visitors a “cinematic universe come to life through innovative animatronic technology and immersive installations including Land of the Giants, Creation Lab, T. rex Kingdom, The Raptor Experience, Gyrosphere Valley and more.”

The experience (from start to finish) can last between 45 minutes to one hour, however, there is no time limit once guests have passed through the entry area.

This means, you'll have plenty of time to take your Instagram worthy pictures!

Ticket prices start at \$21.49 and may vary depending on the day and time of the visit. Children under three years of age may enter for free.

The tour will be open Monday to Friday from 10:00 a.m. to 7:00 p.m., Saturdays from 10:00 a.m. to 7:00 p.m. and Sundays from 11:00 a.m. to 7:00 p.m.
