The [Jurassic Exhibition](#) is one of its kind in Atlanta, harnessing the power of **state-of-the-art animatronics** and the nostalgia of the beloved Jurassic World saga to bring a **true prehistoric wonderland** to life. As you step through the magnificent Jurassic Park arch (and fight off the urge to hum that legendary theme song), **Isla Nublar** stands in all of its glory.

Dinosaurs like the towering **Brachiosaurus**, the scary **Indominus Rex** and the adorable **Little Bumpy** come out of the screen and onto the floors of Pullman Yards. Young and old alike will get to learn more about those (sometimes not so) gentle giants, especially at the **Hammonds Creation Lab**, where John Hammonds' theories come alive. Kids will get to **excavate fossils**, unleash their inner paleontologist and so much more.

You're gonna want to run to Pullman Yards to discover Isla Nublar in its luscious fullness — [Grab tickets before the experience leaves the ATL next month!](#)

Jurassic World: The Exhibition Universal Studios and Amblin Entertainment, Inc. All Rights Reserved.

"Isla Nublar is just a few minutes away." What a crazy thing to say, and yet the world of the acclaimed cinema franchise is so close to reach. At ATL's **historic Pullman Yards**, you'll find this **luscious prehistoric land** — waiting only on you to be discovered. Aided with the latest animatronics technology, **Jurassic World: The Exhibition** recreates your favorite dinos in XXL! Run a hand through their pebbly skin and feel what it must've been like to [pet an actual dinosaur](#)... scales and all.

That's probably what **John Hammond** had in mind when he got the idea for Jurassic Park: bringing people from all walks of life to discover [the magic of dinosaurs](#). And while that promise didn't quite hold up in the movies (let's be honest, the films kept on showing us why it was such a bad idea), you have the opportunity to **fulfill his dream**, right here in the ATL! No need for tranquilizer guns, since you won't actually be chased by any dinosaurs — and you can bring the entire family since it's a super **safe environment**. A few thrills here and there, but no jump scares, we promise!
